Name	Position	Email address

**REQUIRED: Completion of the statement of interest on Page 2**

**Criteria used to select the municipalities for the Cohort Group formation:**

1. Selected municipalities will have similar characteristics (e.g. Currently at a similar stage in asset management, size or type of municipality, location, types of infrastructures managed, etc.);
2. Willingness to work do practical exercise using real municipal data/information, case studies and sharing experience among peers in the group;
3. Regionality: Clusters of municipalities located within a region where travel between locations to attend workshops is not a barrier to participation;
4. Must be able to allocate 2-4 individuals for the duration of the project.

**Desired characteristics of participating municipalities:**

1. High level of commitment by municipal leadership (e.g. CAO and Council) to integration of asset management planning and practices within the municipality’s operations and in being an active and committed working group participant;
2. Commitment to attendance at all workshops in the Program and to completion of the activities/ outcomes associated with each workshop;
3. Willingness to work collaboratively with other group participants in a peer-to-peer learning and sharing environment enabling the group to move forward together;
4. Is excited to be part of a team providing leadership in advancing asset management in their province and sharing its work with others;
5. It is strongly recommended that the municipal team members remain the same for the duration of the project.

## Statement of Interest

Please use the space below to indicate why your municipality is interested in participating in the Cohort program and how your municipality meets the desired characteristics listed above (maximum 500 words):

This initiative is delivered through the Municipal Asset Management Program, which is delivered by the Federation of Canadian Municipalities and funded by the Government of Canada.
